

UV safe case

The UV safe case is a flight case that can carry the D25 safely to its destination. The inside contains foam that can be customized to the size of the device to make transportation as safe as possible. Lastly, with the rubber handle and wheels the flight case can be carried very easily without it being heavy.

Description:

- High impact protection
- Extensively tested for impacts, drops and pressure
- ISO 9001 certified
- Reinforced corners protect against heavy impacts
- Rubber handle for a good grip
- Well-protected closures
