

Helping You Get Back On Track!

Take Advantage Of Our Limited Promotion

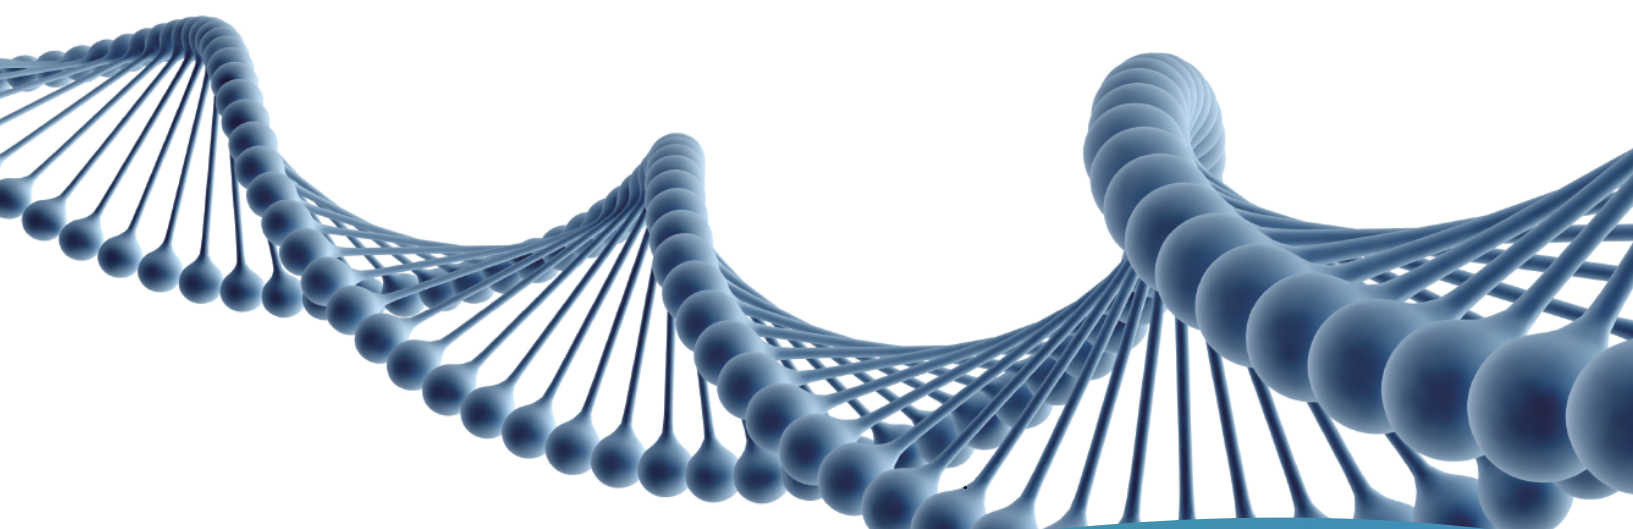

Up to 66% Off DNA and RNA Extraction Services

Over the last year, we know the pandemic has posed challenges to lab access and impacted timelines of many research projects. Let us help you get your projects back on track, saving time and money, with our incredible offer on DNA and RNA extraction services.

Let Us Handle Your Time Consuming Sample Extraction Work

Send us your samples for DNA and RNA extraction as a stand-alone-service or as part of complete sequencing projects and take advantage of our special up to 66% offer for fast, reliable and affordable extraction services for all project types. With over 20 years of genomics project experience you can be sure that your samples are in safe hands.

Contact us today for a free quote.

Reliable, Automated Workflows

Here at BGI we know both your samples and your time are precious! With over 20 years of genomics project experience across 10,000s of projects and millions of samples, our highly experienced laboratory technicians and world-leading lab workflows offer fast, reliable and affordable DNA and RNA extraction services for all project types.

Unlimited Species and Tissue Types

If you can think of it, we've extracted DNA or RNA from it! All species and sample types accepted including FFPE, meta samples, large DNA fragments, seeds, roots, fruits, leaves, and all human cell types.

Highly Experienced Technical Team

Our highly experienced team can help select the most suitable sample extraction method according to different species, tissue type, collection or preservation method. Customized solutions available for rare or low-quality samples.

Promotion Disclaimer:

BGI is pleased to offer its promotions under the following conditions

Partners must send qualified samples.

The promotion shall not be cumulated with any other discount.

The promotion terms are only eligible for contracts signed before July 31st, 2021.

The samples must be received by Hong Kong Sample Management Center before August 31st, 2021.

Extraction services listed and promotional pricing are applicable for samples for DNBSEQ library construction and sequencing.

Partners must have obtained all necessary local consent and regulatory approvals to run their project

This is a limited and conditional offer and BGI reserves the right to void the promotion and revert to its standard list prices if the Partner does not comply with the conditions listed above.

Services are for research use only.
