Colour Palette

Textures

<p>Off-White</p> <p>A warmer option to Pebble Grey providing a subtle but deliberate option as a background colour. Works well as a highlight alongside all other colours within the palette.</p>	<p>Taupe</p> <p>Designed for use when a light yet defined background is required but Off-White is too light. Provides subtle contrast against Off White and Pebble Grey.</p>	<p>Powder Sage</p> <p>A subtle introduction of green as a colour whilst retaining enough yellow and red values to remain warm. Works very well alongside Off-White and Pebble Grey.</p>	<p>Forest Green</p> <p>The strongest use of colour available within the palette. Intended to be used sparingly in combination with lighter background colours.</p>	<p>Recycled Card</p> <p>Although not a colour, the texture and warmth of recycled card is a key part of the brand palette. Can be combined successfully with metallic foil or white print.</p>

<p>Pebble Grey</p> <p>Intended to be used as a subtle contrast colour to white, particularly in digital media where subtle separation between backgrounds is required.</p>	<p>Dove Grey</p> <p>Intended to be used as darker contrast colour to white, for occasions where more prominence is needed than Pebble Grey. To be used sparingly for subtle uses.</p>	<p>Powder Grey</p> <p>Intended to be used sparingly as a mid-grey divider between Pebble Grey / Off White and Truffle Grey. Can be used successfully for soft outlines overlaying lighter colours.</p>	<p>Truffle Grey</p> <p>Our darkest colour, intended to be used primarily for text and outlines overlaying the lighter colours. Use sparingly for backgrounds and block colours to avoid heaviness.</p>	<p>Gold / Copper Foil</p> <p>Although not a colour, metallic foil can be used alongside the Recycled Card textures in printed marketing and packaging to deliver a warm and premium feel.</p>

Route 01: Existing Logo Proposal

This route proposal builds on the existing logo, making subtle changes to modernise and bring some clarity the brand

- Cleaner, consistent line thickness across the whole of the existing logo.
- Typography updated to a new font.

The characteristics of the font add a simplified, friendly nature in comparison to the previous logo. This sans-serif approach adds a cleaner, reassuring and professional feel that is rounded and balanced with circular counters.

- The logo can be used in a variety of layouts (lock-ups) that bring consistency despite their differences. These various lock-ups allow the logo to be used diversely across relevant formats. Eg. for tall formats such as labels, a stacked option works best. For wide formats such as a website header, a horizontal lock-up would be more appropriate.
