

Q2 Gro: Supported Integrations

Q2 Gro is an end-to-end digital sales, marketing, and onboarding platform. Gro reduces friction during account opening, bypassing unnecessary manual steps with automation and integration. By creating seamless connections with core providers, funding vendors, payments applications, risk and credit reporting companies, and others, you're able to quickly gather data, fund accounts, and more.

A critical difference between Q2 Gro and other sales and marketing platforms is our vendor-agnostic backend. Q2 Gro provides the nimbleness you require in today's technology landscape, where your vendors are constantly making upgrades. With Q2 Gro, you can quickly switch between vendors in a matter of minutes.

Q2 Gro at a glance

A complete digital branch

- A robust best-in-breed integration set
- Seamless account opening and onboarding with high Conversion (typically 70 percent)
- Precision marketing with targeted messaging
- A marketplace experience with frictionless checkout
- Increased growth for banks, credit unions, and other financial services organizations

A wide range of connections and integrations to get the most of your digital branch

The connections available with Q2 Gro allow you expand growth opportunities around account opening and targeted marketing. Gro’s shopping cart and checkout experience allows account holders and prospects to simply add the financial products they need—including savings accounts, debit cards, loans, and more—quickly and easily.
