TECH TEAM

As a member of the Tech Team, you represent the backbone for all activities within the organization. You will have the chance to work closely with every teamie within START. Your primary responsibility will be based on your area of interest (IT or Data for instance), that you will develop through-out the year. You will have the opportunity to learn new softwares and gain access to a huge variety of different certifications. Furthermore, the Tech Team is constantly learning new ways of achieving the organization's goals. You will be confronted with different challenges throughout the year that will require your up-most creativity to resolve them.

Skills

- You know how to google
- You are ready to learn new skills and you are flexible to solve diverse problems
- You are interested in Technology, IT or Data Analytics
- You know your way around a computer
- You are willing to learn about HubSpot, our CRM
- You have some coding experience (ideally in JavaScript, HTML and CSS)
- You have experience in Git and Tableau visualization tool is a plus

Benefits

- Learn about some essential business tools and programs used in real company settings
- Gain programming skills
- Deep dive into the startup ecosystem
- Possibility to develop and try your own projects, with a budget if needed
- Interact with tech focused students, and gain insight into emerging technologies
- Be part of a dynamic and super-motivated START Global Team
