| <input type="checkbox"/> | Windows Biometric Framework |
| <input type="checkbox"/> | Windows Feedback Forwarder |
| <input type="checkbox"/> | Windows Identity Foundation 3.5 |
| <input type="checkbox"/> | Windows Internal Database |

Description

SNMP Windows Management Instrumentation (WMI) Provider enables WMI client scripts and applications to access SNMP information. Clients can use WMI C++ interfaces and scripting objects to communicate with network devices that use the SNMP protocol and can receive SNMP traps as WMI events.
