Product Description

イータック®抗菌化ウェットシート

A highly quick-drying alcohol wet sheet with an antimicrobial action that lasts for 1 week

- A highly quick-drying alcohol wet sheet containing an immobilized long-lasting antimicrobial ingredient (Etak) that removes microbes from everyday items you want to keep clean and makes them microbe-resistant with a single wipe.
- Since the antimicrobial action lasts for 1 week, it is perfect for busy people.
- It can also be used to clean your fingers.

* Not effective against all viruses and microbes.

* The duration of the effect may vary depending on the conditions of use.

* This product is not a drug or quasi-drug.

Point

- A more quick-drying alcohol wet sheet with an antimicrobial action that lasts for 1 week
- It can also be used to clean your fingers.

Usage of Product

- Open the lid seal at the location marked OPEN and take out and use 1 sheet at a time.
- To prevent quality degradation due to drying, close the lid seal fully after use.
- Use the product as soon as possible after opening the seal.

Ingredients

Active Ingredients and Actions

Ethanol, water, ethoxysilane compound (long-lasting antimicrobial ingredient), stabilizer

Precautions

▲ Precautions for Use

- Do not use, store or dispose of this product near open flames.
- Do not use this product in persons with hypersensitivity to alcohol or in infants.
- Avoid use around the eyes, on mucous membranes, on skin directly after hair removal, on cuts or on areas with abnormal conditions such as eczema.
- Do not use this product if your skin is in an abnormal condition or if it does not suit your skin.
- Consult a physician if hypersensitivity occurs due to the use of this product.
- Do not use on mirrors, glass or leather products.
- Do not use on items you cannot wipe with water (such as bare wood, furniture or walls that water soaks into), precision machinery or electronic products.
- Store the product away from high temperatures and direct sunlight.
- Store the product out of reach of babies, young children and people with dementia. (Take care that it is not accidentally eaten.)
- You may notice a smell due to the ingredients (raw materials), but this is not a quality problem.
- Since the sheets do not dissolve in water, do not flush them away in the toilet.
- Note that the liquid may leak out if it is pressed upon strongly, for example when carried in a bag.

■ When used on the body, the product removes dirt, and when it is used on items, it reduces the amount of microbes on them after wiping.
