Quasi-drug

A non-irritant, weakly acidic medicated lotion that is kind to the skin

ザネ® スキンローション

Sahne Skin Lotion

- Non-irritant, weakly acidic, and kind to the skin.
- The active ingredients vitamin E and dipotassium glycyrrhizinate (an anti-inflammatory agent) moisturize skin that is flushed after being sunburnt or inflamed, so that it is healthy.
- This lotion does not contain coloring agents or preservatives, and is mildly scented, weakly acidic, and kind to the skin

Package	Recommended retail price (tax included)
140 mL	¥1,134

Indications

Treats skin roughness and inflammation, keeps skin healthy, moisturizes skin, prevents acne, prevents hot flushes after sunburn or frostbite, prevents shaving rashes, and cleanses skin

Usage

Use by lightly patting it onto your skin with your palm, at times such as after washing your face or taking a bath, after a shower, or after shaving.

Active Ingredients

Tocopherol acetate (vitamin E acetate), dipotassium glycyrrhizinate

Other Ingredients

Xylitol, citric acid hydrate, sodium citrate hydrate, fragrance, propylene glycol, benzyl alcohol, polyethylene glycol, polyoxyethylene hydrogenated castor oil, macrogol 4000, octyldodecyl myristate, linalyl acetate denatured alcohol (95V/V%)

Precautions

- Take care that skin abnormalities do not occur, and if the medicine does not suit your skin, stop using it.
- If abnormal conditions such as redness, swelling, itching, irritation, depigmentation (such as vitiligo) or darkening of the skin occur, discontinue the use of this medicine and consult a dermatologist or other health professional. Continuing to use the medicine may cause symptoms to worsen.
- Do not use on areas with abnormal conditions such as cuts, swelling or eczema.
- Always close the cap firmly after use, and store away from direct sunlight.
