# Sonic Streaming Was Created For Podcasters And Their Communities

# Our Purpose Is To Automate Your Wealth Creation Using Web3 Infrastructure

## PROBLEM

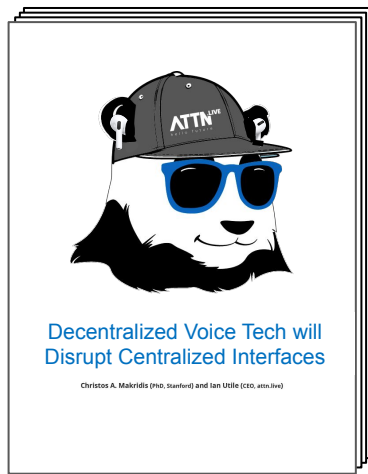

Content today is unprofitable because of the cost of distribution and lack of automation

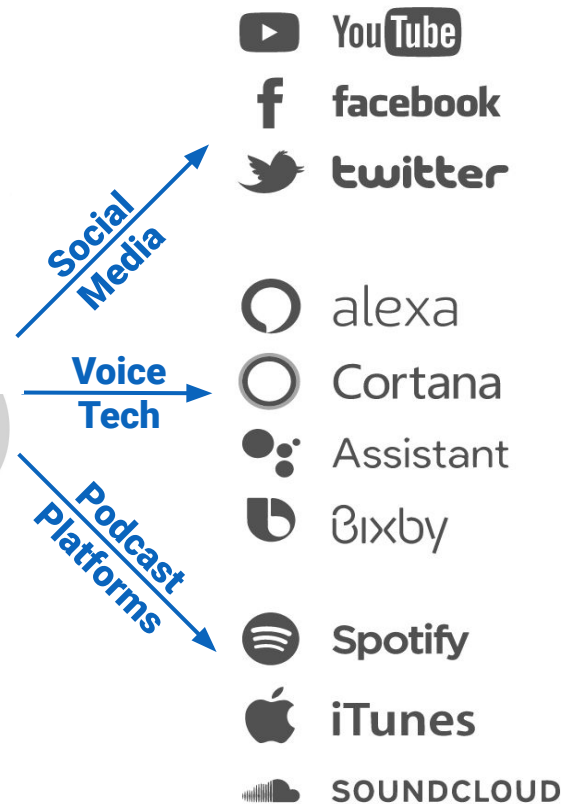

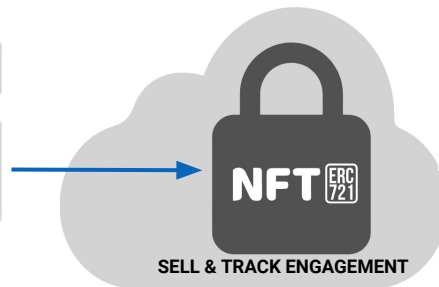

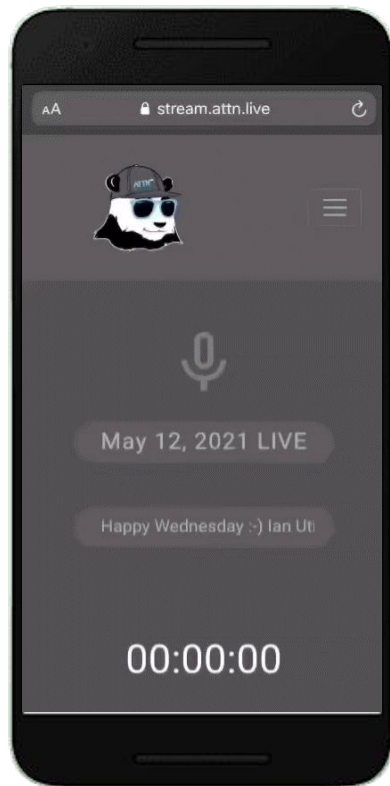

Our proprietary platform provides clients 24x7 traceable content distribution, data analytics, and automated NFT monetization

## SOLUTION

# Our Platform Has Already Been Built And Is Being Used By Sonic Streamers

Our 2020 whitepaper explains how combining decentralized NLP (natural language processing) with NFTs (non-fungible tokens) can automate wealth creation for creators and their communities

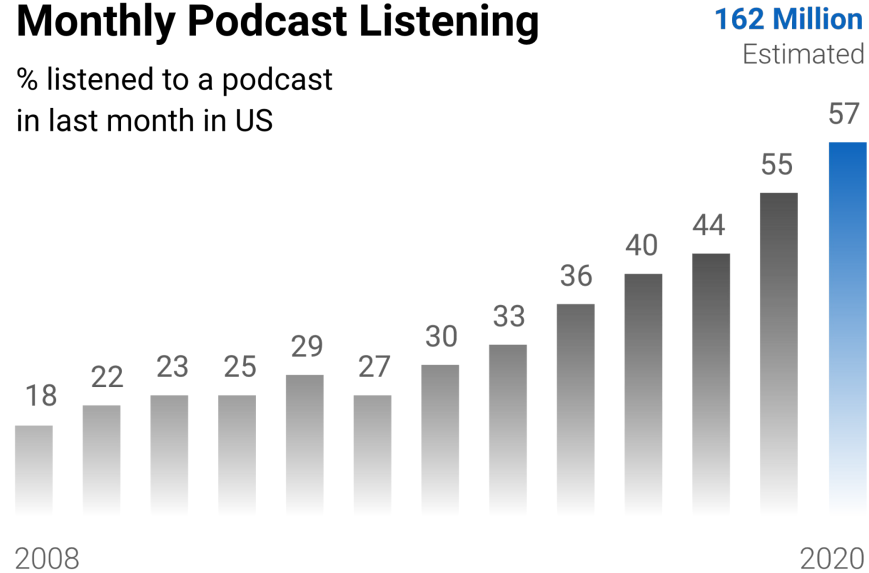

# Sonic Streaming Is A Web3 Category That Combines Podcasting, NLP, NFTs

## Monthly Podcast Listening

% listened to a podcast  
in last month in US

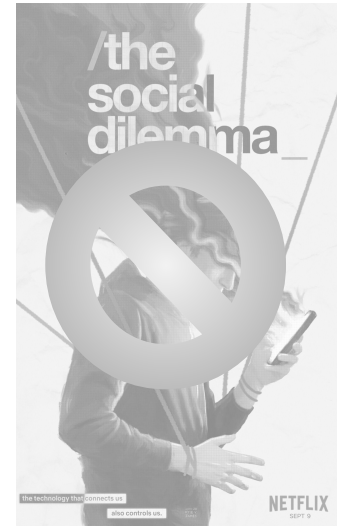

## NLP 91% Increase

A third of American households have a voice tech smart speaker. An increase of 43.4M since 2018.

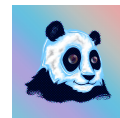

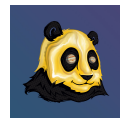

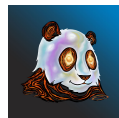

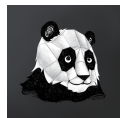

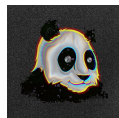

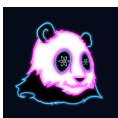

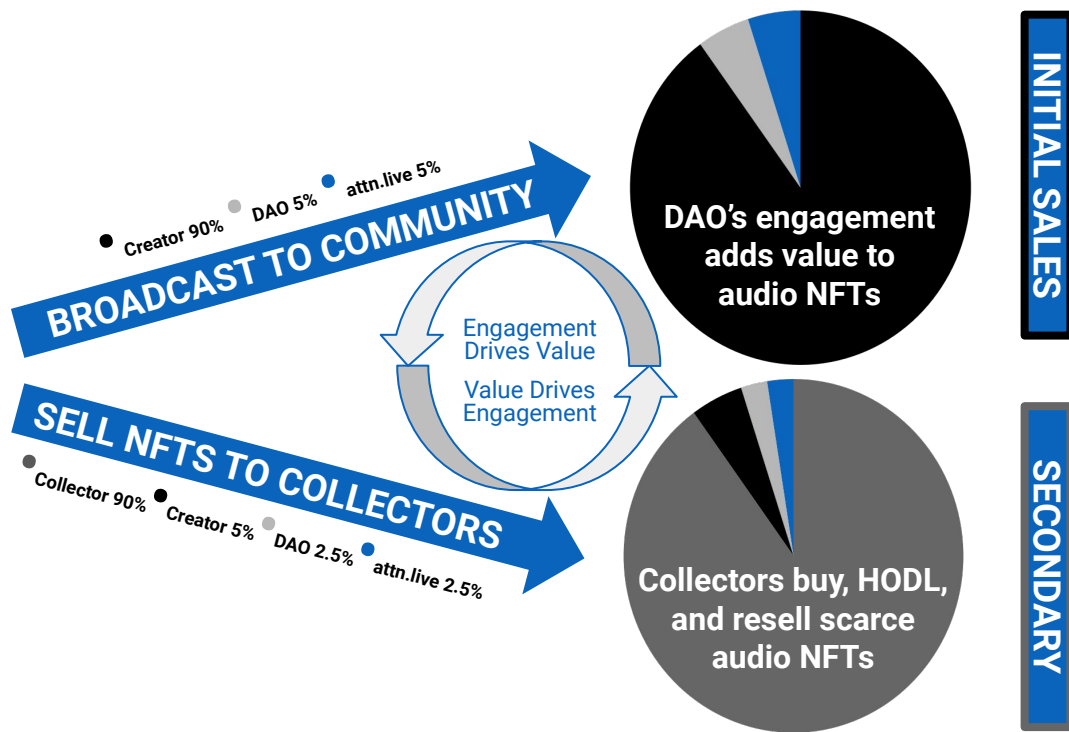

## NFT 398X Increase

Monthly NFT volume has increased from \$17.2M (January 2021) to \$6.86B (January 2022).

# NFT Rev Share Generates Wealth For Sonic Streamers And Their Community

**Sonic Streamers**  
Create Audio NFTs  
For Their Community  
With Both Live And  
Archived Podcasts

# Sonic Streaming Took Several Years To Create - It's Ready For Podcasters Now
