

## Providing the highest quality data for AI & ML Applications

iMerit unites the technologies, processes and people to deliver accurate annotations that the world's leading companies depend on. iMerit collaborates to deploy AI and Machine Learning in Autonomous Technology, Geospatial Technology, Medical AI, and other industries by enriching, annotating and labeling data.

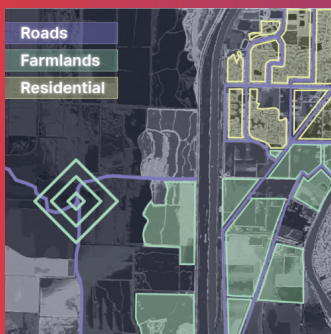

iMerit has labeled over 100 million images and videos that power Computer Vision algorithms. iMerit's delivery team works with complex edge cases and nuanced taxonomies to give clients an extra advantage.

### USE CASE EXAMPLES

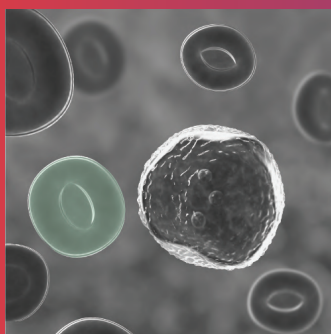

#### Autonomous Technology

iMerit extracts intelligence from 2D and 3D images and video, from pre-annotation processing to dataset validation, to power autonomous technology development.

#### Geospatial Applications

The workforce extracts information from satellite, aerial, and drone imagery to power AI applications in energy, agriculture, logistics, security and mapping.

#### Medical AI

iMerit labels and annotates medical imaging datasets to train healthcare algorithms and gain insights into diagnostics, care processes, and patient outcomes.

### IMAGE & VIDEO ANNOTATION

- Bounding Box Annotation
- Facial Recognition
- Image Classification
- Instance Segmentation
- Keypoint Annotation
- LiDAR Annotation
- Object Detection
- Panoptic Segmentation
- Pattern Recognition
- Polygon Annotation
- Semantic Segmentation

## 3 out of 5

top automotive companies use iMerit for their AV development

Solution Brief

## END-TO-END SERVICE

Subject matter experts will guide you through the process to develop a customized end-to-end workflow.

## CERTIFIED AND SECURE

iMerit is SOC-2 compliant and ISO 27001 certified and leads the industry in safeguards to ensure the data, people, processes and technology used during the data annotation process are safe and secure.

## TOOL INDEPENDENT

iMerit develops custom tools, as well as partners with all the leading tool providers and will help you select the best tool to meet your needs.

## FLEXIBILITY AND SCALE

iMerit enables you to quickly ramp up projects and staff them with trained annotators to quickly achieve your goals.

*“iMerit is the first vendor we've worked with that made us better.”*
