

ORACLE
NETSUITE

Features

3PL ORDER SYNC

Orders are exported out of NetSuite and imported into ShipWorks. The sync runs every 20 minutes and includes customer records, items, prices, taxes, discounts, etc.

3PL FULFILLMENT SYNC

Once items are fulfilled in ShipWorks, the fulfillment data is exported out of ShipWorks and sent to NetSuite. The sync runs every 90 minutes and includes carriers, shipping methods, tracking numbers, etc.

REAL-TIME ORDER SYNC

Same as order sync, but data is synced in real-time instead of every 90 minutes.

REAL-TIME FULFILLMENT SYNC

Same as fulfillment sync, but data is synced in real-time instead of every 90 minutes.

Add-Ons

TRANSFER ORDER SYNC

Transfer orders are exported out of NetSuite and imported into ShipWorks.

TRANSFER ORDER RECEIPT SYNC

Once transfer order items are fulfilled in ShipWorks, the fulfillment data is exported out of ShipWorks and sent to NetSuite.
