

ORACLE
NETSUITE

shipping
easy®

Features

3PL ORDER SYNC

Orders are exported out of NetSuite and imported into ShippingEasy. The sync runs every 20 minutes and includes customer records, items, prices, taxes, discounts, etc.

3PL FULFILLMENT SYNC

Once items are fulfilled in ShippingEasy, the fulfillment data is exported out of ShippingEasy and sent to NetSuite. The sync runs every 90 minutes and includes carriers, shipping methods, tracking numbers, etc.

REAL-TIME FULFILLMENT SYNC

Same as fulfillment sync, but data is synced in real-time instead of every 90 minutes.
