Michael Antone is not employed by nor a member of Rose Law Firm, P.C. Michael currently practices law from the Law Office of Michael Antone, LLC however, he associates with Rose Law Firm to serve specific clients of Rose Law Firm on discrete matters.

Michael Antone assists Rose Law Firm as a member of its extended network of contract attorneys. He brings to the Firm over twenty years of experience in large law firm, corporate, and venture capital environments in the areas of intellectual property and business operations counseling. He is also a professional engineer.

Michael has operated his solo practice since 2016 and focuses on patent and trademark preparation and prosecution, intellectual property counseling and licensing, and business transactions and operations counseling.

Prior to opening his firm, Michael was a partner at Grande Ventures, LLC, a private venture capital fund that invested in various technologies including automation and controls, parallel and virtual computing software, radar, combustion technology, mobile phone technology, and optical communications.

Michael has also served as Chief Intellectual Property Counsel for Corvis Corporation and as a patent attorney for Kirkpatrick & Lockhart (now K&L Gates). He also was a senior engineer at Westinghouse Electric Corporation, where he developed mathematical models and software to perform power system thermal hydraulic and material performance analysis and predictive modeling.
