

EZ Ladder Guard

**The quick, simple,
secure way to
prevent unauthorized
ladder access**

Reduce the risk and liability associated with unauthorized ladder use with the lightest, longest-lasting, easiest-installing ladder guard on the market. Made in the USA of 5052 aluminum, the EZ Ladder Guard is designed to eliminate pinch points associated with hinged, enclosure-style ladder guards. EZ Ladder Guard is durable, weatherproof and compatible for use with all ladder lifeline systems. Simply hook over a rung and securely lock in place for restricted access.

DIVERSIFIED
FALL PROTECTION

Elevating safety standards
