

Interested in becoming AgilePM® certified?

Agile Project Management Certification

Overview

Agile Project Management (AgilePM®) focuses on enabling fast, flexible and controlled project delivery. AgilePM® provides “agility with rigor”, establishing the business, management and solution foundations prior to developing a solution.

Course Outcomes

The AgilePM® Foundation and Practitioner Course is a fully accredited project management methodology intended for all sizes and complexities of projects; from small to large projects; both in the private and public sectors.

Upon course completion, participants will be able to:

- Explain the purpose, scope and value of the AgilePM® Methodology
- Understand and explain in detail the method's principles, lifecycle and products
- Distinguish projects to which AgilePM® would be applicable from ones in which a traditional project management approach would be more appropriate
- Gain AgilePM® accreditation

Related courses

- PRINCE2®
- AgileBA®

Benefits

Benefits to the Individual

- Develop an advanced, applied level of knowledge to contribute to successful delivery of Agile projects
- Increased ability to respond to a rapidly changing business environment
- Career development through achievement of an internationally recognised qualification

Benefits to the Organisation

- Focus on delivery of business value enables faster strategic change at lower cost and lower risk
- Achieve better communications and control over projects
- Potential to rapidly adopt a proven approach rather than developing an organisation-specific process

* Exams are included in price and duration of courses.
