Managing Successful Programmes Certification

What is MSP 5th edition?

MSP 5th Edition is a globally recognised framework for best practice programme management. Programmes are temporary structures used by organisations to lead investments in change.

MSP is specifically designed to address the most common challenges that organisations encounter when leading investments in change. It is designed to align programmes and projects to organisational strategy and to provide governance. It focuses on the outcomes of benefits, whilst mitigating risks and actively engaging stakeholders.

Overview

MSP 5th edition consists of a set of principles, themes, and processes that provide a clear roadmap for the programme lifecycle and ensure successful organisational outcomes:

The 7 principles are the driving requirements that are continually required to achieve value from programme management. These principles are universal, self-validating, and empowering.

The 7 themes help organisations to identify key roles, responsibilities, and information needed to support the theme. The themes give very practical guidance illustrating how MSP can be used according to the reasons for a programme.

The 7 processes provide a route through the lifecycle of a programme with an emphasis on the incremental nature of a programme enabling a cyclical progression towards the desired future state.

MSP 5th edition emphasizes more flexibility, adaptability, and responsiveness by adopting an incremental approach to the programme lifecycle and thus enabling organisational agility

- The programme lifecycle

Outcomes

There are two certification levels: Foundation and Practitioner.

- MSP 5th edition Foundation: for individuals that are interested in learning how to manage multiple projects and programmes successfully. The course provides the theoretical knowledge of how to plan, manage, and deliver programmes from start to finish. It is designed to support programme or project managers, those working in a programme office, business change managers, and programme and project delivery team members, that wish to gain a greater understanding of the MSP guidance to work more effectively in large-scale project or programme environments.
- MSP 5th edition Practitioner: for project, programme, and business change managers that want to build on their knowledge of MSP, in order to practically apply the MSP framework to real life scenarios, providing the skills to lead and manage a programme. It is a must-have certification for both project and programme management professionals to deliver organisational value to their employers and boost their careers.

To Register
