

# Inventory ML™

## Empower inventory teams with AI and ML

With Pluto7 comes truly **unique** capabilities for helping businesses leverage machine learning, artificial intelligence, and analytics on Google Cloud. Our **Inventory ML™** solution leverages AI to define the status of the inventory regardless of your warehouse location. It shows whether the inventory at a particular warehouse is accurate or not. It offers geo spatial visualization and can be used by any company who manages inventory from multiple warehouses.

### Why Pluto7?

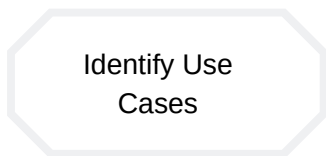

### ML Use Cases

- **Accurate Inventory Status** - shows inventory from all of your warehouses, regardless of their geo location
- **Inventory Planning** - optimize it based on the actual and predicted results
- **Optimized Production** - optimize the production cycle and make it efficient

### Pluto7 Services

#### 1. Innovation Workshop

Define you AI and ML strategy on GCP

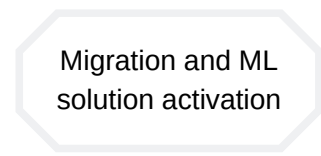

#### 2. POC

Centralize data and test

#### 3. Solution Deployment

Execute and empower business transformation
