

Large-capacity paint spraying system and finish area

Industry sector:

Utility vehicle construction

Work piece:

Welded constructions

Year of construction:

2008

Technical data:

- 4 Filling and grinding areas 11 x 5 m
- 1 Combined paint spraying and drying booth
14 x 6 x 5.6 m
- 2 Large-capacity powder coating booths
12 x 6 x 5.6 m
- Powder enamelling furnace/Paint dryer 13 x 4 x 5.6 m
with dark radiation technology
- Powder enamelling furnace/Paint dryer 13 x 5 x 5.6 m
- Ventilation technique for cleaning hall (finish area)
- Machine technique for finish area 22.4 x 7 x 7.5 m incl.
sectional ventilation and filter ceiling

Special features:

- Combined paint spraying and drying booth with heat
recovery system by thermal wheel

Large-capacity paint spraying system and finish area
