Specialist Machinery Sales (SMS) works collaboratively with clients to design a metalworking machinery specification that meets performance outcomes, ensuring a competitive advantage is achieved. We understand that each project is unique and requires a tailored approach to align with your specific needs and goals.

To achieve this, we have developed a comprehensive project timeline that evaluates automation and innovation strategies appropriately. This timeline outlines each phase of the project, from initial consultation and design to implementation and support. Throughout this process, SMS will provide your business with the intellectual property and expert guidance necessary to support every step of the project.

Our commitment is to meet agreed milestones, ensuring that the project progresses smoothly and delivers the desired results. By partnering with SMS, you can be confident that your investment in advanced metalworking machinery will lead to improved efficiency, productivity, and overall success in your operations.

LOOKING TO BUY PRE-LOVED MACHINERY?

Specialist Machinery Sales offer second-hand or used structural steel processing machinery from Kaltenbach, Gietart, Haeusler, SLF and more.

Generally, the machines that SMS has access to are from trading for new machines offered from the machine tool builders to clients of SMS in Australia and New Zealand. Most machines are between 5 and 15 years of age with full-service history available. Some machines can be inspected under power or in their shipping packing ready for immediate delivery to Australasia.

READY TO SELL YOUR PRE-LOVED MACHINERY?

Selling your pre-loved machinery may appear to be a simple process but it might be more complicated than you think. Selling pre-loved machinery involves equipment liens, resale certificates and financing a buyer. BUT DO NOT WORRY!

Used Structural Machinery (USM) is here to partner with you. At USM, we are your ideal channel to take your equipment and place it in the right hands, with the security and confidence that characterises us. Review our checklist below to help you understand when to retire your machine and how USM can help you sell it off efficiently and effectively.
