## Classwize

Empowering teachers in today's digital classrooms

Greater student engagement.
Empowering teachers to drive better outcomes.

In today's internet-connected classrooms, teachers need greater visibility and management over what and how their students are accessing the internet.

Classwize is a simple-to-use, highly effective dashboard that lets teachers see and shape internet access in real time, to help students stay focused and avoid digital distractions.

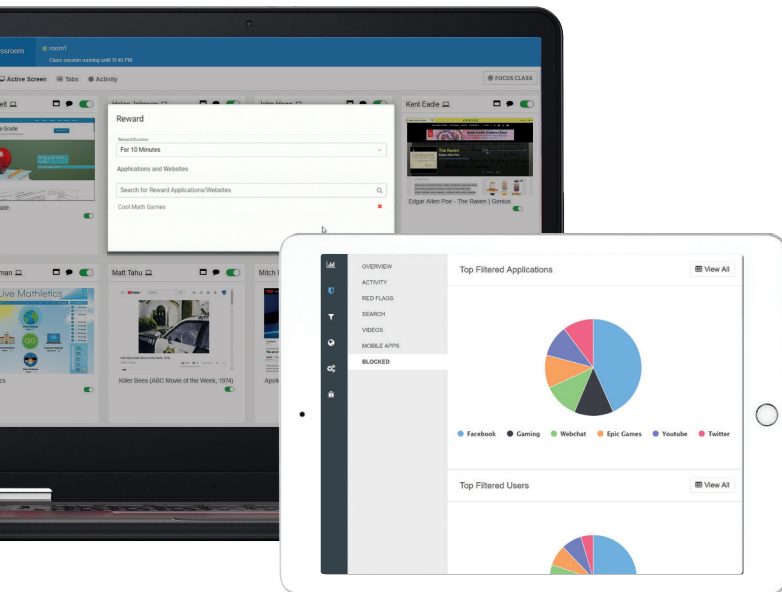

"Classwize provides a birds eye view of how each student is progressing through a lesson, enabling realtime teachable moments and support. Teachers love the focused browsing feature, the ability to instant message individual students to build confidence and capacity, and enjoy rewarding students for responsible behaviour and achievements by safely allowing broader access to the internet."

eHub Operations / Communications
Whakatane High School

Classwize allows teachers to have full screen visibility of every supported device in their classroom. With flexibility to manage students at an individual or class level, teachers can message students or the entire group as well as open tabs for the class or individual students.

Teachers can also incentivise the right behaviour by rewarding students by allowing time-limited access to sites that are normally blocked.

The Features

• Teacher visibility & management of all student and device internet access during lessons

• Tailored internet access to suit lesson requirements

• Screen visibility

• Block/allow internet access as required via easy to set policies

• Focus the class, restricting access to specific sites or apps

• Override school filtering to block/allow access as required

• Control and focus access to specific sites & web applications

Wellesley COLLEGE

"The introduction of Classwize took Linewize to the next level by giving classroom teachers greater control around how students were using the internet. This was not just about filtering out inappropriate websites but enabling teachers to empower students with the ability to use the internet appropriately."

Veronica Stevens, Deputy Principal
Wellesley College

About Linewize

The Linewize ecosystem is used by over 18,000 schools and 9 million students across the globe. It's a unique response to the challenge of today's connected learning environments, supporting the integration of technology, education and engagement to create cyber safe communities where students thrive.
