A cyber safe school community

linewize.io

Linewize

ARE YOU CONCERNED ABOUT THE USE OF PERSONAL & LEARNING DEVICES?

Keeping students safe, focused and distraction-free when they're surrounded by connected devices is an enormous challenge.

Firewalls only work when students are on the school network. Increasingly students simply hop onto their smartphones or hotspot with friends for unrestricted access.

Dealing with personal mobiles through bans or lock-up is troublesome, unpopular and difficult to enforce. Then there are the problems parents face when school-mandated devices are taken home. Once off the school network, all control is lost.

BYOD & 1:1 PROGRAMS

BYOD and 1:1 are the new normal. But school-mandated devices moving between school and home create a range of challenges.

How can you ensure safe use of that device at home? Are you required to? How can you engage and empower parents to do so? If they do, how can you prevent actions that interrupt learning?

PERSONAL MOBILES

More than ever, students are bringing personal mobiles to school, and with them hotspotting, distractions and a real risk of harm. Bans and 'out-of-sight' policies have a role, however they can be troublesome and unpopular.

How can you ensure these devices are compliant with school acceptable-use policies?

How can you ensure parent expectations and duty of care are managed?

HOW LINEWIZE CAN HELP

CONTROL ANY DEVICE. YOUR SCHOOL, YOUR RULES.

Linewize allows schools to control every device students use during school hours, whether school-mandated or personal. With Linewize, every device becomes fully compliant with your acceptable-use policy - whether on or off the school network.

SAFER STUDENTS. FEWER DISTRACTIONS. BETTER OUTCOMES.

Empowering schools to manage and control students' personal devices means all online activity stays constructive and learning-focused. The result?

Students are protected online

Distractions are blocked

Learning outcomes are enhanced

Duty of care is met

ENCOURAGE PARENTAL ENGAGEMENT & ACTION

Our unique suite of technologies, educational and support services allows parents to:

- seamlessly opt in to controls after school
- leverage school-set calendars and routines
- access expert-recommended settings
- take advantage of evidence-based educational material
- access reports on usage, risks and compliance

HOW IT WORKS

Set a policy for the year levels that need protection.
Then leave it to us.

Parents or IT install
Mobile Zone

Parents can opt in or out of
parental controls at home

School policies are then
enforced anywhere

Schools are informed
of risks & compliance

Linewize is an ASX-listed global cyber safety and security provider. Trusted by schools throughout Australia, New Zealand and the United States of America.

Linewize is also the trusted provider of cyber safety technology to many of the world's largest telcos.

We understand school needs, and our absolute focus is providing solutions that support schools to achieve educational outcomes and ensure student well-being.
