

EFG C23-C30L
Electric Cushion
Tire Lift Trucks

4,500 – 6,500 lbs. capacity

 **JUNGHEINRICH**[®]

Greater Energy Efficiency. Lower Cost Of Ownership.

The Jungheinrich® EFG C23-C30L models of sit-down electric counterbalanced lift trucks are an ideal material handling solution for a wide range of industrial applications.

Whether you are shuttling goods, loading and unloading trailers or moving large loads from dock to stock, the EFG C23-C30L runs longer without sacrificing performance. Available in 4,500 – 6,500 lb. capacities, these 36 and 48-Volt AC lift trucks set the industry standard – reaching lift heights of up to 276 inches.

Benefits

Highly efficient for long run times

High Lift Heights – Up To 276"

Excellent Visibility

Exceptional Operator Comfort

500-Hour Service Intervals

JUNGHEINRICH

Exceptional Run-times. More Productivity.

Introducing a new generation of warehouse products

The EFG C23-C30L models of sit-down counterbalanced lift trucks take your operation to a higher level, thanks to their excellent performance and high efficiency. Never settle for stopping a shift to re-charge your lift trucks.

How do we do it?

The pioneer of 3-phase AC technology, Jungheinrich has been perfecting electric lift truck technology for more than 60 years, allowing us to set the standard for high performance.

Our AC technology in action:

Advanced Drive System

Rapid acceleration, smooth directional changes, precise speed control and handling are just a few of the advantages of the Jungheinrich EFG C23-C30L models' AC drive system. Individual performance features such as travel speed, acceleration rate and regenerative braking response can all be customized to fit your application requirements, giving you the ultimate control.

All AC Hydraulic System

Jungheinrich's all AC hydraulic system provides smooth load handling and precise load placements. Hydraulic cushioning is built into the mast staging function to minimize unnecessary shocks to the truck and to the load.

Enhanced Hydrostatic Steering

Promotes more precise control during operations with minimal effort. The compact steering wheel design gives operators more room.

A Comfortable Shift. From Start To Finish.

Adjustable Comfort

Spacious Operator Compartment

Combining superior comfort and functionality allows for increased operator efficiency.

Standard Adjustable Seat

The full-suspension vinyl seat can be easily adjusted to suit operators' unique preferences.

Optional Fingertip Controls

Boost your operator comfort and productivity by adding the optional fingertip controls – with an integrated horn button for added security.

Excellent Operator Awareness

- Vibrant 4-inch, full-color display provides vital information
- The precisely-engineered overhead guard offers optimized visibility while racking or stacking.

The display includes date, clock, speedometer, vehicle hour meter, warning icons and more.

Intelligent Warehouse Solutions.

Smart Technology

The EFG C23-C30L models are equipped with top-of-the-line technology to keep your operators productive and secure.

- **Adaptable Performance Modes** - optimize your performance and efficiency by selecting one of the pre-set operating modes.
- **Operator Presence System** - This integrated, computer-based feedback system uses both audible and visual indicators to alert the operator of potential hazardous situations.
 - When the operator is not in the normal operating position, the presence system electronically discontinues powered-travel movement and load handling functions.
 - When an operator is in the normal operating position, but the seat belt is not buckled, an audible warning will sound and a visible indicator will appear, alerting the operator.

Security Features

- Steering wheel-mounted horn
- Emergency power disconnect
- Dual-action parking brake
- Two LED front work lights
- Three-point access
- Optional additional horn packages
- Optional Light Packages

Three point access provides a secure way to get on and off the lift truck.

JUNGHEINRICH

Jungheinrich

Maintenance-Friendly. More Uptime.

With reinforced side panels and easy-to-remove component covers, you have quick access to service the EFG C23-C30L. And, with 500-hour service intervals, you can confidently move your business forward.

500-Hour Service Intervals

- Lower overall cost of ownership
- Increased uptime

Easy Serviceability

- Easy access to key service components
- Display-based maintenance reminders

Battery extraction methods

- Side Rail Extraction
- Side Roller Extraction
- Overhead guard battery extraction

Reliable Design

- Cowl design and steering column
- Rerouted wiring integrated into the overhead guard – for a streamlined view and an added protection of your investment
- Excellent visibility through the mast and overhead guard

Options Tailored To Your Application.

Custom-Fit To Your Operation.

Drive-In Rack Options

- On a standard truck that is 88" high by 41.5" wide, the 30" narrow section of the OHG is positioned between 52" and 84.5" high on the truck.

Special Application Packages

- Freezer package for intermittent use below 14° F
- Optional U.L. type ES, EE ratings

Electronic Back-Up "Smart" Alarm

- Ideal for freezer and cold applications
- Automatically adjust its volume level to suit the environment
- -40°F to 185°F temperature operating range

Control Features

- Foot direction control
- Steering wheel knob
- Rear grab handle with horn button

Variety Of Light Packages

These models can be customized with blue spot lights, strobe lights and more.

Additional Productivity Features

- Fingertip control seat-mounted armrest
- USB port
- Cloth covered seat
- Side rear view mirrors
- Clipboard holder
- Fire extinguisher
- Electronic backup "smart" alarm
