The Navigator RT-4000 has become a known favorite in the industry. The RT - 4000 is time tested and by far one of the quickest, lightest, most maneuverability operator friendly two wheel drive forklifts in its class. While RT-4000 is one of the toughest most reliable units on the market, it still remains light enough to mount on most single axle trucks. With new features which include a powerful rubber mounted Kubota engine, improved hydraulic control assembly and wider foot steps.
