The NAVIGATOR 5500 is built to withstand the demands of the building materials industry. NAVIGATOR'S ultra - heavy duty mast, dual action parking brake and many other standard features are packaged in the 5500 series in order to provide a machine that will get the toughest jobs done. The 5500 is a self-loading, all terrain forklift designed for your heavy duty lifting needs. Lumber, cement, roofing materials and almost any palletized material can easily be transported over even the roughest terrain. The mounting system is designed to reduce stress while on the truck and allows the operator to load/unload in less time.
