Hazardous Substances Register
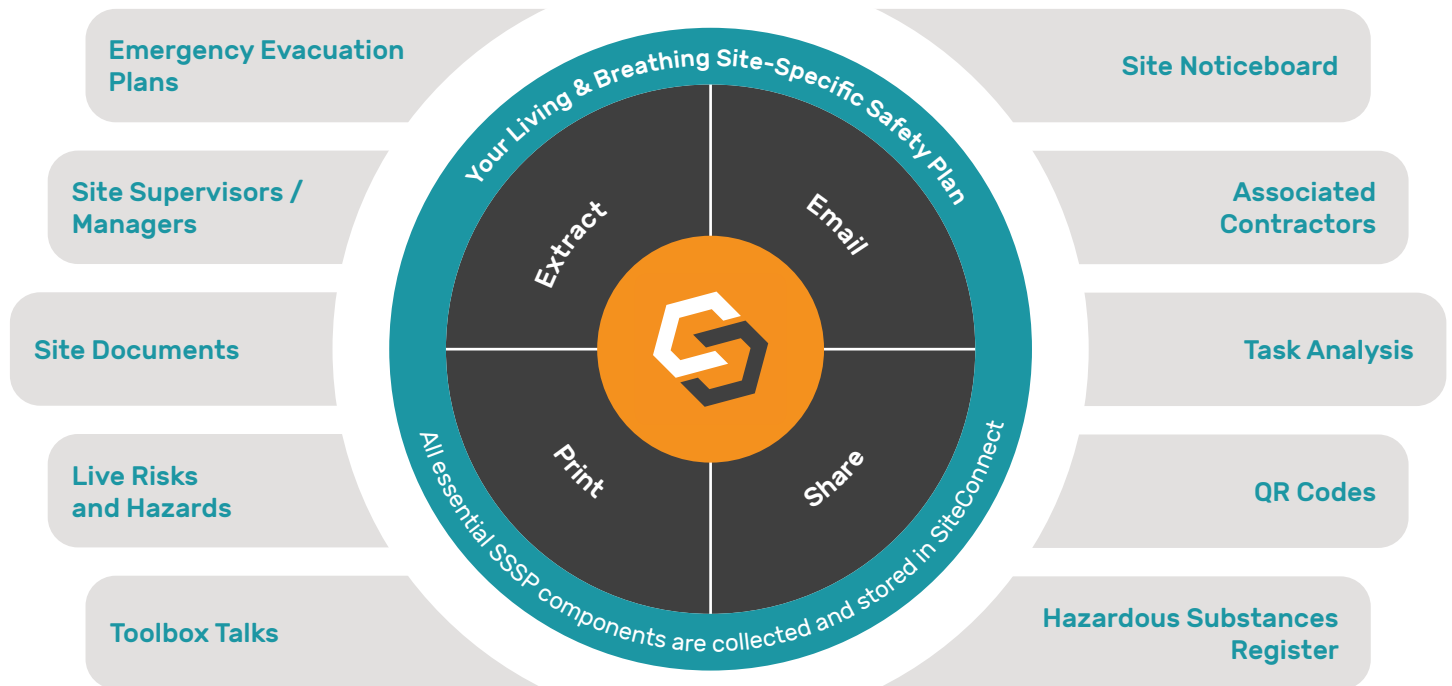

SiteConnect, the comprehensive Site Management and Health & Safety platform, can provide your client or teams with a living and breathing Site Specific Safety Plan (SSSP) in a few clicks.

Automate this once time-consuming process with the data that is already in your SiteConnect system.

SiteConnect provides a real-time view of all components of a site-specific safety plan attached to a specific site.

Quickly respond to new bids and tenders by creating a safety plan and then snapshot the necessary parts of the latest version for audits and compliance requests during your project's lifecycle.

Anyone who may need this vital data can then use the collected SSSP information to improve health & safety compliance across operational sites reducing the personal liability risk to all business stakeholders, owners, and employees.

Access your SSSP Anytime, Anywhere
The SiteConnect SSSP functionality gives you the ability to extract, export, print, email, or download a Site Specific Safety Plan at any job stage.
