Is your business prepared for meeting COVID-19 Government restrictions?

With COVID-19 back in our community, it is paramount that your site or workplace is operating in-line with the government restrictions and guidelines.

How long could this go on for and if it continues how will this affect my businesses bottom line?

These are all important questions during these uncertain times. Luckily SiteConnect has a costeffective, quick to deploy health & safety solution built in-line with the Government's requirements.

SiteConnect can help you meet your obligations by:

You have a duty of care over all staff, workers and contractors that come to your workplaces and sites.

SiteConnect gives your team the tools they need to not only record your normal health & safety protocols but also to manage a full COVID-19 response plan for your business.

For more information regarding SiteConnect and how it could solve your unique business challenges please fill out our online form: https://sitesoft.com/ request-a-demo/

Take care, stay safe and be kind to one another.

SiteConnect is a product developed and owned by SiteSoft New Zealand Ltd
