NEW

REMAN

Unmatched quality and coverage

Manufactured to meet or exceed OE fit and performance specifications

Three-phase performance tested

100% end-of-line testing ensures reliability and durability

98% import and domestic passenger vehicle and light truck coverage

Free ASE Certified technical assistance

Complimentary roadside assistance included

Quality-Built starters and alternators come with complimentary roadside assistance. This program adds value and peace-of-mind for your customers.

**CALL BEFORE YOU RETURN!**

**800-228-9672**

ASE Certified Technicians are Standing by 7 days a week

MPA's team of ASE-certified master technicians are trained to resolve installation, diagnostic, and product application questions.

powered by:

## 1. Pulley

Clutch and decoupler designs are remanufactured and set to OE specification for like-new operation.

## 2. Bearings

100% new premium, sealed bearings increase durability and service life.

## 3. Rotor

Multi-phase tested and double coated for maximum corrosion protection.

## 4. Stator

Stators are inspected and tested to meet or exceed OE output specifications.

## 5. Slip Ring

Precision polishing provides consistent voltage output and reduced wear on brushes.

## 6. Brushes

100% new, brushes for optimal conductivity and reduced contact resistance.

## 7. Voltage Regulator

Variable load testing ensures correct voltage delivery at all RPM's.

## 8. Rectifier

100% new, press fit, high capacity diodes maximize current output flow.

## 1. Starter Drives

Application-specific starter drive gears are inspected and replaced as required.

## 2. Bearings

100% new premium, sealed bearings increase durability and service life.

## 3. Starter Drive Clutch

Remanufactured with aerospace quality lubricants for smooth energy transfer to the flywheel.

## 4. Armature

Armatures are inspected and tested to meet or exceed OE output performance specifications.

## 5. Commutator

Fully inspected and precision machined for maximum contact and optimized voltage transfer.

## 6. Brushes

100% new, lead-free brushes increase conductivity and reduce contact resistance.

## 7. Solenoid

Solenoids are inspected and tested to meet or exceed OE output performance specifications.

## 8. Solenoid Contacts

100% new solenoid contacts for maximum cranking power.
