

FRONTLINE

AUTOMATION

MACHINE OPERATOR

Today's frontline automation machine operators require mechanical, electrical and computer skills to be successful. Gain knowledge in shop math, print reading, quality control, PLCs, and basic computer skills. Learn about basic robotic controls and equipment. Perform basic machine troubleshooting, and more.

Our interactive online classes are led by an expert facilitator. This course includes specialized materials developed by industry professionals. Upon successful completion, participants will receive a completion award.

Location:

Interactive classes via Zoom

When:

February 2 - March 9

Tuesdays and Thursdays 7:30-9:30 a.m.

*There is an 8 hour hands on equipment assessment at the Oregon City Campus - dates and times TBD

Investment:

\$559/participant
