

LiquidityHub for Corporates from Adamant Lane AG Now Available on SAP® App Center

By integrating with SAP Cloud Platform and SAP ERP, LiquidityHub for Corporates delivers digitized supply chain finance processes to customers

Zürich – 18 January 2021 – Adamant Lane AG today announced that its LiquidityHub for Corporates platform is now available on SAP® App Center, the digital marketplace for SAP partner offerings. LiquidityHub for Corporates integrates with SAP Cloud Platform and SAP ERP and delivers digitized supply chain finance processes to customers.

LiquidityHub for Corporates is a platform that offers businesses the possibility to quickly implement sophisticated supply chain finance solutions. It offers streamlined end-to-end integration with all suppliers and several banks on one platform as a highly flexible software-as-a-service (SaaS) solution.

At SAP App Center, businesses can discover approximately 1,600 innovative partner solutions that integrate with and extend SAP solutions. There, customers can find the SAP-validated partner apps they need to grow their business. And for each purchase made via SAP App Center, SAP will plant a tree. Find, try, and buy SAP partner solutions digitally at www.sapappcenter.com.

Adamant Lane AG is a partner in the SAP PartnerEdge® program. As such, it has access to tools, training, resources and benefits that partners need to deliver the solutions and services customers demand. The SAP PartnerEdge program supports partners to facilitate building high-quality, disruptive applications focused on specific business needs - quickly and cost-effectively. The program provides access to all relevant SAP technologies in one simple framework under a single, global contract.

About Adamant Lane AG

Adamant Lane AG was founded in Zurich by a team of experienced financial services and cloud platform experts with a strong history in supply chain finance. The target of Adamant Lane AG is to revolutionize the way, how complex trade finance processes will be designed and operated in the future. Based on a “banking-as-a-microservice” approach leveraging newest cloud technologies and the reliability of SAP for the new platform.
