

Clinical Coordinator

Location: Taguig, Philippines

Lifetrack Medical Systems is a healthtech company that has developed and deployed the first scalable, distributed medical imaging software designed for affordable access around the world. Lifetrack works with large healthcare chains, public health systems and radiology group practices to scale their radiology operations seamlessly without the pain or cost of legacy medical imaging software.

Lifetrack's mission is to build simple, elegant, powerful, and intuitive software platforms for the entire healthcare ecosystem, starting with medical imaging in emerging markets, where the needs are greatest and the resources are scarcest. Our LifeSys™ platform is now being used in healthcare in Southeast Asia, South Asia, Africa, the United Kingdom and United States for hundreds of thousands of patients annually. We are trusted and backed by the Asia Impact Investment Fund of UOB and Credit Suisse, the corporate VC arm of Philips Healthcare, and Kickstart Ventures of the Philippines' Ayala Group.

Core Responsibilities

The Clinical Coordinator, reporting directly to the company's Teleradiology Services Lead, shall be responsible for the Day-to-Day coordination of the Teleradiology Services with its client and acts to support and ensure service delivery. This includes roles such as:

1. Clinical Coordination

- a. Liaises with medical, nursing and radiology staff at hospitals and imaging centers for any clarifications on the study, lacking clinical info, prior studies or images.
- b. Coordinates results which needs immediate medical attention with attending physician, radiation technologist or nurse of the client.
- c. Coordinates with site radiation technician if there are issues with the quality of the study images sent.
- d. Assign Cases to designated groups of pre-readers.
- e. Monitor incoming and assigned cases to designated pre-readers.
- f. Perform spinalizer measurement on Cases in accordance to client requirements.
- g. Regularly Interacts with end-users and performs ongoing assessment of whether technology is meeting the needs of the department, ensuring it enhances the workflow

and not impedes it.

2. Technical Support

- a. Participates in the development, implementation, testing and maintenance of the Radiology Information System (RIS) and Picture Archiving Communication Systems (PACS)
- b. Provides direct support to end-users (nurse, doctors, radiation technicians, IT and other members of the healthcare team), working within the established support framework that includes informatics and IT input
- c. Liaises with the Informatics and Information Technology team to develop resolutions to issues in response to user requests and concerns

3. Training and Orientation

- a. Assists in onboarding new Consultant Radiologists.
- b. Provides protocol orientation to radiation technologists, according to global standards used by Lifetrack.

4. Administrative and other ad-hoc activities

- a. Updates Local Radiologists Schedule
- b. Updates Case Census for both local and US clients
- c. Prepares Local radiologists Work units
- d. Export Local Radiologists DTRs
- e. Perform other duties/functions that the Management may assign from time to time.

Critical Requirements

1. A graduate of allied medical courses (Nursing, Radiation Therapy, Physical Therapy)
2. At least three (3) years of experience in a clinical, business operations, and/or administrative
3. Ability to thrive under a flexible work schedule environment (must be amenable to work in a shifting schedule as per business operation needs)

Critical Qualities

Mental Agility. A suitable candidate has the ability to understand the role and translate it into day to day actions; s/he can solve issues and/or problems in a systematic manner; and who has the confidence to handle difficult situations.

People-person. You should have the ability to handle interactions with both clients and colleagues in a manner that gets the job done.

Critical thinker. As an integral part of the team, you should think clearly and rationally, and make logical connections between ideas to create a wise decision.

Persistent. It is a necessary component of the role to ensure that you are able to carry out the requirements demanded of the role.

Operating Principles

Purpose-driven. We are looking for individuals who are aligned with our mission and are motivated by working on healthcare technology that can positively impact millions of lives around the world

Do it right, from the start. We believe in starting from first principles and putting in the hard work now to avoid more work down the future. Our LifeSys™ platform, built from the ground up, reflects this.

Radical transparency. We want our people to keep growing and improving. Receiving and giving feedback is critical for this. We expect people to be upfront, open and willing to learn from each other.

Crush the bottlenecks. We are always focused on the critical path to achieving results. We expect our members to be relentlessly efficient in clearing the obstacles to this critical path.

Going the extra mile. We like and reward team members who are not only good at their jobs, but will raise their hand and propose projects or solutions that help take Lifetrack forward.
