RANGE DETAILS

Here is your shipping range details.

Note :

Shipping Range is very important for a shipping method. You cannot access a shipping method without any shipping range. So you have to set atleast one range for the shipping method. You can set upto a maximum of eight ranges for a shipping method..

Here's an example to understand the lower and upper limits of a defined range:

Range 1 (1-10lb) - here the upper limit is 10.99lb

Range 2 (11-20lb) - here the upper limit is 20.99lb

So, product A of weight 10.75lb will be covered under the range 1 (1-10lb)
