

# Test-drive Boost

Is our award-winning culture right for you?

Are you looking to be part of a great team who value collaboration? Do you want to truly contribute to your workplace culture? Would you like to work on projects that make the world a better place?

Boost is a purpose-led, values-driven organisation based in Wellington. We're more than just a digital tech company — we're an

award-winning Agile workplace always looking for new ways to make our company the best place to work in New Zealand.

In May we plan to host our next Test-drive Boost collaborative hiring event. This will give you the chance to experience our team culture and get a feel for who we are and how we work.

There are two phases:

## 1. Collaborative hiring evening

Join us on 27 May for an evening at Boost. You'll get to meet our team and collaborate with other attendees on paired problem-solving activities. You'll learn what makes Boost tick so you can see if we are the right fit for you.

What to expect:

- Start off with some nibbles and mingling
- Explanation of the evening's activities and how they fit with Boost's purpose and values
- Paired collaborative exercises with the Boost team observing

## 2. Working interview

If successful, you'll be invited to Boost for a one-day working interview. This is a chance to share your skills and test drive our working culture by working side by side with the Boost team.

Why are we hiring like this?

Choosing where you work is one the most important decisions you'll make. The more you know about a prospective employer, the better your decision. This way you get to try us out before you sign on the dotted line.

For Boost, it's a chance to learn more about you and how you work with others. It empowers our team to have a say in who we work with. And it will help us build a team who share the same purpose and values.

The process

- 1 Collaborative hiring evening
- 2 Team deliberation
- 3 Invitations to working interview
- 4 Working interview
- 5 Team deliberation
- 6 Successful applicants notified
- 7 Boost grows with new team members
