

## APPLICATION INSTRUCTIONS AND MAINTENANCE INFORMATION for ROLL-OUT ACTIVITIES®

Thank you for purchasing Roll-Out Activities® or  
Space Saver Roll-Out Activity®!

### **Tips for Storing:**

When ready to use, simply roll-out our Roll-Out Activities® and bring the benefits of active play anywhere. Roll-Out Activities® are easy to store – just roll them up and stack or store them vertically in the protective tube it was shipped in. The portability of our Roll-Out Activities® games means they can be easily “rolled-up” and stored in tight spaces, then reused when needed.

### **How are Roll-Out Activities® cleaned:**

They can be cleaned with mild soap and water or household type of cleanser using a light, gentle, circular motion. Please note that significant scuffs and stains may require scrubbing which may remove or smudge ink. Do not use abrasive cleaning tools or harsh cleaning chemicals. It is recommended that the cleaner you use be tested in a small corner area before using it on the entire material.

### **What are Roll-Out Activities® made of:**

Roll-Out Activities® are crafted of thick, reinforced vinyl.
