

CODE: T22

LED light indicator, with compact shape, for panel hole diameter 22 mm.

It is widely used for the construction of electrical and control panels

Lamps	LED
Working voltage	12V • 24V • 110V • 230V
Working temperature	50°C Max
Hole diameter	22mm
Recommended thickness panel	da 0,5mm a 7mm
Method of connection to the panel	con dado
Type of connection	morsetto a vite
