

Built by home health professionals, for home health professionals – we understand your world. And we can help you outperform the competition and grow your business. KanTime provides the right tools and processes for home health providers to improve compliance, enhance operational workflow, and boost financial success.

## Benefits

Maximize Efficiency

Improve Compliance

Decrease Costs

## Features

- + Human Resource Management**  
Receive alerts prior to expiring items, organize employees by skill type, and easily find the most qualified practitioner for the visit.
- + Advanced Scheduling**  
Easily drag and drop the visit plans and free-form schedules with our simple and intuitive scheduling tools.
- + Authorization Workflow**  
Experience improved workflows with dashboard alerts of available authorizations and tracking at every stage.
- + Intake/Referral Management**  
Our Intake Module and advanced tracking lets you collect intakes at the time of service, leading to less debt and increased profitability.
- + Eligibility Dashboard**  
Get answers regarding eligibility history and requirements while adapting to shifts in Medicaid and Medicare policies.
- + Automated Payroll**  
Automate your payroll process with our flexible financial options. Set up and manage varying pay rates while the system does all the heavy lifting for you.
