

# HOSPICE<sup>+</sup>

The hospice landscape is unique, and your agency needs the right solution to help you manage the complexities of patient needs, interdisciplinary care teams, back-office, and regulatory requirements. KanTime provides an innovative and intelligent solution that helps you optimize and streamline all aspects of your hospice agency while staying in complete compliance.

## Benefits

Automate Business Processes

Easy to Use

Improve Turnaround Time

## Features

- + IDT Management**  
Seamless IDT management workflow gives you the power to have quick and efficient IDT meetings that address necessary topics and patient concerns.
- + Bereavement Management**  
Customized Bereavement Management tools enable you to manage your own bereavement processes with follow up and alerts.
- + Simplified Billing**  
Manage hospice benefit periods quickly and accurately and even track non-billable services such as volunteer hours.
- + Auto Collection of HIS for HQRP**  
Direct interfaces with billing clearinghouses such as Waystar and Ability transmit your claims easily through the push of a button.
- + Volunteer Management**  
Calculate hours needed to achieve the 5% volunteer service goal while assisting you in tracking, managing, and maintaining all schedules and services to ensure compliance.
- + Advanced Reporting**  
Robust financial reports give you clarity into your revenue cycle permit month, hard closes, and even roll-up across all your branches.
