1 Red Spinel Cushion 2.03 ct. (7.33x6.82x5.17mm) - Natural
2 Red Spinel Cushions 2.72 ctw. (6.7x6.1mm) - Natural
76 Diamond Rd 0.68 ctw. (G+/VS+)

UNIQUE DESIGN TRAITS

Burmese red spinels were once confused with rubies, since they are often mined in similar locations and display such vibrancy.

Incredibly rare to find three matched red spinels of this depth of color and clarity.

Unique hand-pulled wire mounting allows plenty of light to enter the stones for added brilliance, and stones are further complimented by the tones of the 18K yellow gold.

GEMSTONE DETAILS

Spinel

One of the most under-appreciated gemstones, spinel is coveted by collectors and gemologists for its range of hues and spectacular optical properties. Spinel was recently added as an official birthstone for August, raising its exposure to new heights. Recognized and prized for its hardness, brilliance, and unlike many other gem types, spinel is rarely treated or enhanced in any way. Many believe the name spinel comes from the Greek word for 'spark'. This name suits spinel well since it is a singularly refractive stone and is formed with cubic crystals similar to diamond, which gives this gemstone remarkable brilliance and fire.
