

SERVICE OVERVIEW

# Invoice Auditing

A high-angle, blue-tinted photograph of three business professionals in a meeting. One person is pointing at a laptop screen displaying a bar chart, while another points at a document. A third person is visible in the foreground, also looking at the laptop. The scene is set on a desk with a coffee cup and other papers.

## Leaving Money on the Table?

Did you know that, every year, billions of dollars in shipping refunds go unclaimed? It's true. Out of \$2 billion in audit credit refunds owed by shipping carriers each year, a full 75% go unclaimed. That's \$1.5 billion!

The fact is, if your company ships and receives packages with carriers like FedEx and UPS, you could be entitled to thousands of dollars in refunds. Every time a package arrives even just a few minutes late, you're likely owed a refund on its shipping cost.

## Get What You're Owed

On average, 3% to 5% of packages are delivered late every day. But you only have 15 days to claim your money. It isn't just late deliveries that are the problem. Billing errors can occur on every carrier invoice you receive. The problem is that carrier invoices can be hundreds of pages long every week.

Thankfully, there's Reveel. Our team of auditors will conduct a thorough, 45-point audit on each of your shipments. Our proprietary software not only gets you back all of the money you are owed, but also automates the refund process. Which means you can just sit back and watch your refund credits pile up.

## No Risk, No Out-of-Pocket Cost

The best part about our Invoice Auditing service is that there are no out-of-pocket costs. There are no setup fees or long-term contracts. Reveel simply shares in the refund credits we're able to secure for your company.

**Contact us today** to see how much money you're losing every month to late deliveries and billing errors. On average, we save our clients 3% to 5%!

*"It just does it itself. It's all in the background. I don't have to do anything. I get the statements about what credits I should get and make sure that I got them. I don't have to think about it."*
