- Choose Help from the list of menus on the top of the screen and choose About
- 2. A new window will pop up
- 3. Make a note of the **Site ID** and **Licence No** or take a screenshot of the window and send it to the Welbeck team.
- With this information we will now be able to ask ClanWillian to upgrade your DGL to the right version of the system. This operation can take time.

## Enabling the Compucare 8 – DGL interface

- 1. Open DGL practice Manager and access the Welbeck preferences via the Misc menu as shown:
  - a. Misc > Preferences > System
    Preferences > Welbeck
    Preferences

Note: If the menu item is not available, the interface has not been enabled by DGL support. Please contact OneWelbeck IT to request this.

- In the top half of the box, input the consultant code and password (provided by OneWelbeck) and choose the target consultant, DGL diary and DGL Hospital(s) to be synced with OneWelbeck.
  - a. At least one DGL Hospital must be selected, you can pick up to 3.
  - b. Only appointments created at the hospital(s) specified here will be transferred to OneWelbeck.
  - c. Note: Please enter "OneWelbeck" (No space and capital O and W) in the Diary Name box.
- In the bottom half of the box, Appointment Types can be mapped from incoming Welbeck appointment types to DGL appointment types to avoid importing the Welbeck appointment types into DGL. The OneWelbeck Appointment types are:
  - a. New Patient Consultation
  - b. New Consultation
  - c. Follow Up
  - d. Annual

4.	These	can	be	map	oped	to	the	DGL

	in the	pickli	st u	nder	'DGI	_ Ap	point	ment
	Type'.							

5.	Also in the bottom half of the box, towards
	the right is a Welbeck Lab Link option, with
	a box to next to it. This will enable or
	disable whether reports and results will
	come to you via Compucare.

6. The interface is now enabled, though a restart of your DGL software may be required.
