

Technology Solutions for the Healthcare Industry

Improve the Patient Experience and Protect Patient Healthcare Information

Fusion Connect helps Healthcare providers address today's technology and security challenges, so you can focus on treating your patients. Our cloud-based communications and collaboration systems help healthcare organizations improve the way you interact with your patients while protecting the privacy and security of patient health information in accordance with HIPAA. Our network services, including Wide Area Networks, VPNs and Managed WiFi, deliver the secure connectivity healthcare organizations require to run your mission-critical applications and provide consistent, quality patient care.

Phone Systems and Unified Communications

Empower doctors and staff to stay connected and handle calls professionally, from anywhere. Enable doctors, technicians and staff to collaborate instantly among themselves and with patients via secure chat, text, screen sharing, and audio and video conferencing. Phone features, such as virtual receptionists, flexible call routing options, call recording, support mobility and improve your professional presence while safeguarding patient information.

Secure Networking

Fusion Connect's network security experts take the guesswork, risk, and hassle out of deploying a network that supports your mission-critical network traffic and patient data security.

High-Speed Internet

Connect your practice, administrative offices and remote care providers with a wide range of business-class broadband services including Ethernet, T1, DSL, cable and broadband wireless, available nationwide. Empower speed-hungry applications, from high-resolution video-conferencing to massive data replication and backup. Ensure your cloud-based applications are always accessible and optimized by making your network connection bulletproof, guaranteed.

Managed Wi-Fi

Support wireless medical devices, improve your patient and waiting room experience, and empower staff with access to reliable and secure WiFi solutions.
