

Introducing scoutAsia

A joint venture by Nikkei & FT

ScoutAsia is an Asia-focused news & company data platform, jointly developed by Nikkei and the Financial Times in 2018, with the ultimate aim of making Asia more accessible to foreign businesses.

Combining quality content and technology, scoutAsia provides AI-driven insights on what is changing in Asian businesses. ScoutAsia currently curates news & company data from 24 countries & regions across Asia.

Singapore-based Handshakes by DC Frontiers came on board in 2019 to power the platform with its award-winning AI and data analytics technologies.

As of today, scoutAsia is the only English-language platform that provides English machine translation of Nikkei Content.

Region-wide Coverage in Asia

AI Topics Specialised in Monitoring News & Updates

Let machines read tons of news articles and pick up the right content for you.

ScoutAsia's AI feature **scout AI** helps you follow the topics of your interest more effortlessly.

The web app subscription comes with **50+ pre-trained Standard AI topics** and opportunities to **customise & create your own**.

The Standard AI topics include:

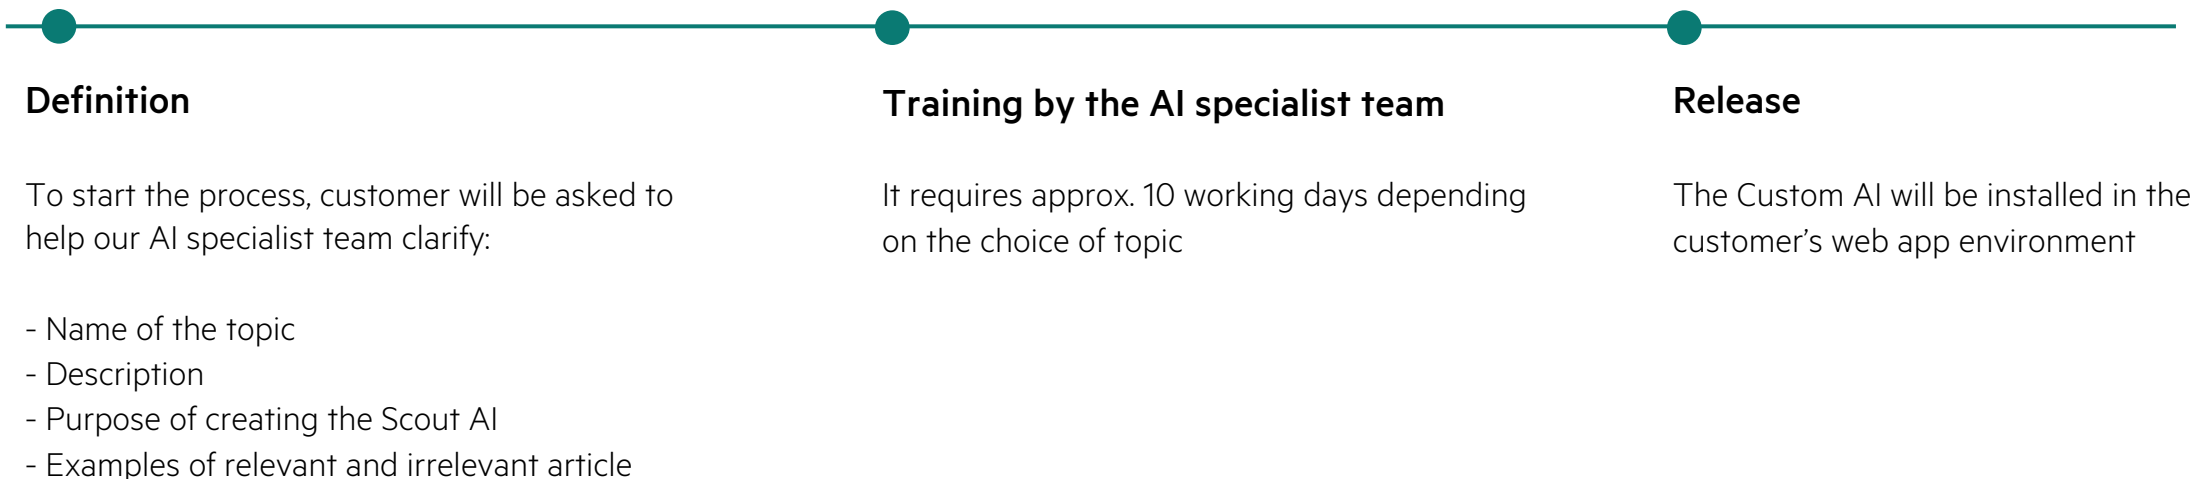

- **Covid 19** related topics (Vaccines, Treatment, Testing)
- **Markets** (Stocks, Currencies, Interest Rates)
- **Macro Economy** (Monetary Policy, Economy)
- **International Relations** (International relations, Trade talks)
- **ESG** (Human rights, Labour rights & employee welfare, ESG investing, Climate Changes)
- **Current matters** (Electric Vehicles, Supply Shortage, Cybersecurity, Blockchain)
- **Business Trends** (Business expansion, Digitalisation, Upsizing & Layoffs)
- **Financials** (Earnings Upgrade/Downgrade, Financial Distress)
- **Corporate Events** (Management changes, Mergers & Acquisitions, IPOs)

and more..

How to create Custom AI Topics

Apart from the pre-trained Scout AI topics within the subscription package, users can customise their Scout AI according to their requirements.

By implementing AI assistance, your AI topics will be able to pick up context of the article instead of limiting search results to keywords mentioned, leading to higher precision in search results.

AI monitoring & instant summaries - Radar

Our latest feature Radar surfaces signals and insights on topics from non-traditional angles.

With Radar, you can combine multiple search feeds and your target companies to discover emerging topics and related industry players.

Our customers use Radar to:

- Identify a company's strategic business area and how it is publicly perceived through news
- Monitor emerging businesses and topics which are hard-to-classify by existing frameworks
- Discover peers, competitors, and potential customers related to your industry

The screenshot displays the 'Agriculture - Thailand' radar interface. At the top, there's a title 'Agriculture - Thailand' with a plus icon and a 'SETTINGS' button. Below the title, a subtitle reads 'Monitoring news on agriculture, food supply and exports in Thailand'. There are two tabs: 'News' (active) and 'Companies'. The main section is titled 'ALL NEWS' with a dropdown arrow. It states 'Found 1,701 articles from the past one year'. The first article is from 'DAILY MIRROR' 9 hours ago, titled 'Structural Adjustment and Stability after IMF Is it Adequate?'. It mentions '6 COMPANIES MENTIONED' and 'AUTO-SUMMARISED BY SCOUTASIA'. The article text discusses Sri Lanka's economic situation. The second article is from 'BUSINESSWORLD' 12 hours ago, titled 'Malaysian delegation from food, healthcare, IT industries to visit Philippines'. It mentions '2 SCOUT AI', '1 COMPANY MENTIONED', and 'AUTO-SUMMARISED BY SCOUTASIA'. The article text discusses a trade mission to the Philippines. On the right, a 'Most Mentioned Companies' sidebar shows a list of companies with their mention counts: BANK OF THAILAND (75), Nikkei Inc. (67), Charoen Pokphand Foods Public Co. ... (60), Ministry of Finance (59), and CEIC HOLDINGS LIMITED (54). At the bottom of the sidebar, it says 'TOP 100 OF 6224 COMPANIES FOUND' and 'Last updated 17 Aug 2022, 12:08 (GMT +09:00)'.

DAILY MIRROR 9 HOURS AGO MULTIPLE SEARCH FEEDS

Structural Adjustment and Stability after IMF Is it Adequate?

6 COMPANIES MENTIONED AUTO-SUMMARISED BY SCOUTASIA

- On his presentation on Debt Crisis, Structural Adjustment and Trade Policy, Athukorala opined that Sri Lanka, during the era of Independence had maintained an export-oriented economy with a strong welfare component.
- With income disparities in rural and urban sectors becoming low and falling, Athukorala explains that economic policies of Sri Lanka gradually became more focused on keeping up with welfare.
- Even though reports denote that the debt burden of Sri Lanka was much higher in the early 90's compared to the present, the current situation is way more destructive as the external debt relative to the Gross Domestic Production (GDP) of the country is weighed out by non-tradable goods, which Athukorala points out "does not help us pay any debts".

BUSINESSWORLD 12 HOURS AGO FOOD SUPPLY

Malaysian delegation from food, healthcare, IT industries to visit Philippines

2 SCOUT AI | 1 COMPANY MENTIONED AUTO-SUMMARISED BY SCOUTASIA

- The event is organized by MATRADE, the Malaysian Ministry of Entrepreneur Development and Cooperatives, and SME Bank Malaysia.
- MATRADE Trade Commissioner in Manila Intan Zalani said that the mission will help Malaysian firms establish a presence in the Philippine market and "expand key business relationships." "With a young and fast-growing population, the Philippines offers valuable prospects for Malaysian-made products and services that are synonymous with quality and compliance with international standards," Ms. Zalani said.
