

The VoiceFriend complete COVID-19 Response Solution

Boost communications, health and safety—in one solution

VoiceFriend's all-in-one COVID-19 Response Solution is all you need to effectively automate and manage vital communications and help keep everyone safe during this pandemic—and any future crisis. Our easy-to-use, end-to-end solution is designed to help you with:

- **Emergency communications capabilities** via telephone, text and email
- **Secure on-demand call-in number** to hear critical community notifications
- **VoiceFriend Virtual Meeting** to engage residents in virtual activities, religious services, entertainment or a nice community chat
- **Staff health screening** for COVID-19 symptoms before each shift by calling a hotline to answer a series of health questions
- **Resident safety check-ins** to help ensure isolated or at-risk residents are not in need of assistance

Learn how communities including Benchmark, Brightview, Five Star, Leisure Care, MBK and many others have used VoiceFriend to help them through the COVID-19 pandemic. Contact us today to request a discussion with our COVID-19 response experts.

“VoiceFriend has been especially helpful during COVID-19. We can put out mass messages to our entire population to inform them of changing protocols and safety measures we have in place in response to the pandemic.”

Jeff Fischer, President
MBK Senior Living

“VoiceFriend has been a great way to ensure that communications are delivered efficiently and effectively... and to really give residents a lot of peace of mind.”

Kim Brooks, Chief Operating Officer, Senior Living
Hebrew SeniorLife—A Harvard Medical School Affiliate
