

# BETTER DATA, BETTER DECISIONS

MEDICAL PRACTICE ANALYTICS

**WE HEAR IT FROM PRACTICES ALL THE TIME. THEY CAN'T TRUST THEIR DATA. HOURS ARE WASTED MERGING AND CLEANING DATA. IT'S JUST TOO HARD TO GET THE INFORMATION NEEDED TO RUN THEIR BUSINESS AND TAKE CARE OF PATIENTS.**

**CAN YOU ANSWER THE FOLLOWING QUESTIONS ABOUT YOUR PRACTICE QUICKLY & ACCURATELY?**

- Are we following our standard of care? What is the impact on cost? Reimbursement?
- How can we improve patient satisfaction?
- Are we staffing efficiently? Are providers fully utilized?
- Where are our new patients coming from? Where should we put our marketing dollars?
- How long are patients waiting in the office? On the phone?
- What are our volumes this month? Can we forecast next month?
- Where are denials coming from and why? How efficient is our revenue cycle?

# PRACTICE MANAGEMENT

**WE RELIEVE THE  
BURDEN AND STRESS  
OF DATA SO  
PRACTICE  
ADMINISTRATORS  
CAN FOCUS ON  
HIGHER PRIORITIES.  
GET UP-TO-DATE  
INFORMATION  
WITHOUT THE GRUNT  
WORK OR DOUBT.  
MAKE INFORMED  
DECISIONS FOR YOUR  
PRACTICE AND  
PATIENTS.**

Many physician groups struggle to manage and understand their data. Often there are multiple applications that don't talk to each other. Experienced healthcare data experts are hard to find and expensive.

We connect to all of your data sources, implement a common data model and then build intuitive, interactive dashboards based on our 10-years of experience in healthcare. As a result, managers get reliable, automated and up-to-date analysis. No need to hire specialized resources, or waste hours merging reports, cleaning-up data and updating pivot charts.

# QUICK START OR CUSTOM SOLUTIONS

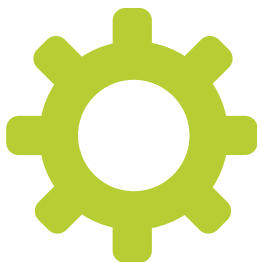

---

DEPENDING ON NEED AND BUDGET

## QUICK START

Migrate existing reports & spreadsheets. Train your team.

## CUSTOM

Build new analytics for your specific needs.

# FUSION

Since 2006, Fusion Consulting has brought business intelligence and data warehouse solutions to the marketplace as an award winning SAP Gold Partner and Cisco Preferred Partner. Over the years, our firm has been selected by numerous healthcare systems and Fortune 500 enterprises in various industries, where we have delivered over 200 successful data management solutions.

---

**"PREVIOUSLY THE DATA WAS MANUALLY ABSTRACTED OR ANECDOTAL. WE NOW HAVE A CONSISTENT MANNER TO STUDY OUR PRACTICE AND PROCESSES TO UNDERSTAND WHERE WE NEED FOCUS AND HOW WE CAN BETTER SERVE OUR PATIENTS"**

**Brenda Bruneau, RN MBA  
Chief Quality & Patient  
Safety Director**
