*Note: Please verify that you have the correct number of parts before proceeding.

PLEASE FOLLOW WRITTEN INSTRUCTIONS CAREFULLY

1. Find an open, flat area in which to assemble your racking. Carefully remove all components from the box and check all parts to verify package contents.

2. Attach the sides to the top and bottom using supplied screws. Be sure to align them correctly so the shelves can be installed.

3. Flip cabinet shell over.

4. Install the back cleats using screws provided. Top & bottom or left & right cleats fit against top & bottom or sides. Flip over when done.

5. Install shelves or vertical and horizontal dividers depending on cabinet type.

6. The angled shelves are not secured with screws but float between the cabinet front and the back cleats. The edge banded side faces forwards.

7. If purchased finish by attaching facing trim and stand.

*Tip: Use glue sparingly

*Note: For more stability attach racks to wall
