

Thank you for purchasing this fine quality "Made in America" product. When properly assembled and installed, your racking will complement your wine collection for many years to come. To ensure proper assembly, please make sure that all necessary parts have been included and follow instructions closely.

If you have questions or problems please call us at 845-658-7181, Monday through Friday between 9am & 6pm EST

### Parts & Tools

If you are planning to stain or finish your racking, we recommend you do so BEFORE assembly for best results

This rack is designed to be assembled with a nail gun, using either 18 gauge 1 1/2" brad nails or similar finishing nails. Nails are not included.\*

Instructions show a sample 6 column rack. All 39 3/4" Double Deep Base Racks are assembled in the same manner. Your order will contain the specific number of ladders and spacer bars appropriate for your chosen rack. Racks wider than 10 columns will have segmented spacer bars with clips to attach them together.

**\* If you purchased pre-drilled screw assembly you would have received pre-drilled spacer bars and 1 1/2" Phillips head screws as part of your order**

# Assembly Instructions

PLEASE VERIFY YOU HAVE THE CORRECT NUMBER OF PARTS BEFORE PROCEEDING  
FOLLOW WRITTEN INSTRUCTIONS CAREFULLY

1. Find an open, flat area in which to assemble your racking. Carefully remove all components from the box and check all parts to verify package contents.
2. Arrange the End Ladders with the bottle supports facing the inside of the rack. Attach a spacer bar to the top of the rack (flush with top of rail) and to the bottom of the rack (flush with last bottle support).
3. Fill in the middle of the rack by attaching the Middle Ladders to the spacer bars.
4. Flip the rack over and attach the spacer bars to the top and bottom of the rack as you did on the other side.

If using rack on top of a base you can nail through the bottom spacer bar of the upper rack into the top spacer bar of an assembled base rack. It is recommended you secure both racks to a wall for optimal stability. Hardware for attaching to a wall is not supplied. Simple "L" brackets from your local hardware store are a popular option for securing to a wall.
