GAP WAIVER

Our GAP Waiver will cover the difference between what you owe on your vehicle, and the amount it is worth at the time of an accident. Without GAP, you could potentially be left paying for a vehicle you no longer have. See contract for more details.

VEHICLE THEFT

In the event your vehicle is stolen, most insurance companies will only cover the amount the vehicle is worth at the time of the theft, and leave you with paying extra expenses like a rental car or fees associated with purchasing a new vehicle. These extra costs can add up fast, but Autto's theft recovery program can help offset some of these costs. Our theft recovery contracts have the following benefits:

- Unique ID number attached to your vehicle to help track down your vehicle faster.
- In the circumstance where our program doesn't recover your vehicle, we will help pay for expenses like sales tax, dealer fees, and registration fees for your replacement vehicle. Plus, we will pay your insurance deductible and help pay for your rental car.
- No deductible.
- See contract for more details.
