

SENIOR RESEARCH SCIENTIST (M/F/D) IN BIOCHEMISTRY/BIOPHYSICS WITH FOCUS SPR

Proteros is a privately held early-stage services provider in structure-based drug discovery with a cutting-edge discovery engine tailored to unlock even the most technically challenging targets. Proteros' work is built on scientific excellence and supports its clients to reach the right results and accelerate their overall research timelines. Proteros supports most of the world's 20 largest pharma companies and more than 250 pharmaceutical and biotech partners in the US, Europe and Japan. For more information please visit www.proteros.com.

YOUR RESPONSIBILITIES

- You will support our internal and customer drug discover projects by biochemical and biophysical characterization of ligand-target interactions.
- You will further strengthen our SPR group by developing and applying methods for the screening and characterization of fragment-target, small molecule-target, DNA or RNA-target, biologic-target and protein-protein interactions.
- In addition, you will work with biochemical and biophysical technologies such as nanoDSF, MST, ITC and enzymatic assays like AlphaLisa, ELISA, Abs, Lumi, FI, FP, FRET and HTRF based assays.
- You will analyze and summarize your results in reports to our customers. You will discuss the reports with our customers and integrate your data in the context of our customers drug discovery projects.
- You will be a member of interdisciplinary teams alongside colleagues from the other disciplines.

YOUR PROFILE

- You have a PhD degree in biochemistry or biophysics.
- You have at least 3 years of relevant work experience in the area of biochemistry/biophysics in a drug discovery environment.
- You are able to integrate biochemical/ biophysical data in the context of early drug discovery programs.
- Ideally, you have leadership experience and could take on personnel responsibility for technical assistants (m/f/d).
- Your positive, communicative and open personality helps you to understand other opinions, and contributes to productive project discussions with internal and customer project teams.
- Fluent English and basic German language skills are required.

OUR OFFER

- An innovative professional field in an exciting industry
- An inspiring working atmosphere as fertile ground for your further development
- A comprehensive induction that prepares you optimally for your area of responsibility
- Multicultural teams and an open corporate culture
