

Age-appropriate chores for kids

We've rounded up some chore ideas for each age range, plus bonus chore ideas for extra cash. Once you've narrowed down the chores that align with your kids' abilities and your own beliefs on chores, fill them into the chore chart we included. You can also think through whether to pay for "everyday" tasks or tasks that go beyond chores that contribute to being part of a family and include that in the reward section. With some clear expectations, a little guidance and encouragement, and maybe a bit of practice, you'll have an industrious household in no time.

> Toddler Chores

(Tip: Start your toddlers with star charts and let them earn stars to put toward rewards.)

Savings Goal Tracker

3

-

Good savings habits help build a solid foundation for good money habits. Keep track of what you earn, what you spend, and how close you are to your savings goals using our trackers below.

Date	Notes	Earned (+)	Spent (-)	Balance

Let's set a goal!

Is there a new Switch game you want? Are you growing your Pokemon collection? Your cool new savings account can help you get there! Fill in the blanks to the right with what you're saving for and how much you're saving — then color in the gauge as you save.
