PVM

CHALLENGE, ACCEPTED.

What gets us up in the morning? Real world impact. As a professional engineering services company, we are obsessed with using data to solve the world's toughest problems.

OUR FOCUS

DESIGN

We design data-driven, focused computer software solutions. Our engineers word closely with our customers and immerse themselves in the problem, enabling us to deliver complete solutions.

REQUIREMENTS ANALYSIS / USER EXPERIENCE DESIGN / PRODUCT DESIGN

DEVELOPMENT

Our solutions engineers employ best-in-class technologies to develop powerful, scalable software that meets organizational mission needs.

SOFTWARE CREATION / SECURITY / TESTING / DATA SCIENCE / ARTIFICIAL INTELLIGENCE/MACHINE LEARNING

DEPLOY

We deploy an agile software development framework to engage our customers as we iteratively build solutions. This engagement ensures we're meeting our customers needs with no late-stage surprises.

AGILE / THOUGHT DIVERSE / ISO CERTIFIED / PRODUCT MANAGEMENT

NOT YOUR AVERAGE TECH COMPANY

We're not like everyone else and we know that's what makes us great. PVM is a minority-owned, women-run tech company. We pride ourselves on our diversity of talent, our diversity of clients, and our diversity of thought.

✓ CERTIFIED ISO 9001:2015 COMPANY

≣ SERVICE-DISABLED VETERAN-OWNED SMALL BUSINESS (SDVOSB)

☆ OUTSTANDING CUSTOMER SATISFACTION RATING

WE ALWAYS EXPECT THE BEST

"Over the past 10 years, PVM has become a technology company full of engineering mavericks who work together with the end-goal of our clients in mind, unintimidated by the magnitude of the challenges. Our ambition? Never settle for the status quo. We are a company full of people who understand mission-critical technology needs while operating effectively, efficiently, and with the expectation to constantly strive for excellence."

DON'T JUST TAKE OUR WORD FOR IT

"Honestly, we couldn't have completed this project without PVM. Given the unique nature of 2020—a global pandemic—PVM stepped up when they were needed most and delivered results flawlessly. Their work was crucial to our agency in a time of such stress, uncertainty, and turmoil."

REPRESENTATIVE PUBLIC
HEALTH AGENCY

"Not just a company of software engineers—trainers too! Not only did PVM organize our data so we could use and interpret it effectively, they trained us on the software so we could be empowered to solve problems."

REPRESENTATIVE FEDERAL
LAW ENFORCEMENT AGENCY

"Creative, timely, and productive. PVM delivered on this project for us. The migration was so smooth and progressed with no interruption. Couldn't be happier."
