

TimeSaver[®] Blanks

Still buying your EDM graphite in blocks & cutting them up yourself?

- **STOP** making a mess
- **STOP** wasting material
- **STOP** creating scrap
- **STOP** making mistakes
- **STOP** wasting time
- **STOP WASTING MONEY!**

3D Graphite and Machining, Inc will cut directly to your required EDM electrode blank, machine your specific tool holder pattern (Erowa, System 3R, or custom), and deliver a product ready to mount to your holders and go. We call it TimeSaver[®], and you will too.

10 Reasons to purchase TimeSaver[®] Blanks from 3D Graphite & Machining

- Customers that purchased their graphite in bulk and cut it up themselves, found on average, 10-15% of that block was either thrown away as scrap, or sits on a shelf, never to be touched again.
- Graphite dust is a nuisance. 3D does the dirty work, so your shop can stay clean.
- Shop-hands are usually in a hurry, and do not take the time to determine how to cut a block of graphite for best yield, causing material waste, mistakes, and scrap.
- 3D Graphite has a 99.2% accuracy record and a 100% guarantee your electrodes will be cut and machined correctly.
- Manpower and equipment could be better utilized, increasing your shop's efficiency.
- Stop guessing. Know your true electrode cost associated with a job.
- Supply 3D with your electrode location information, and your TimeSaver[®] blanks will arrive clearly marked, taking the guess work out of where they go in your operation.
- TimeSaver[®] orders ship in 1-2 days.
- 3D offers the highest quality EDM graphite on the market. All made in the USA.
- TimeSaver[®] blanks are surprisingly reasonable in price.
